

HARVEY ESTATE SERIES STORM DOORS

Cabriolet

H801
Self storing
w/high kick panel

H802
Self storing
w/low kick panel

H809
Full view self storing

The Estate Series, Harvey's premium storm door line, features the Cabriolet storm door which is highlighted by a retractable screen. With the screen hidden away in the head of the door, this means the seasons change but screen and glass don't!

Cabriolet door styles (H801, H802 and H809) are stocked in white, and are available special order in almond or sandstone. See reverse for hardware options.

CABRIOLET FEATURES

- **Retractable screen** which hides away in head of door when not in use
- Automatic screen reset feature maintains a constant tight fit
- 1-3/4" mainframe designed for strength with elegant rounded corners
- Two heavy extruded aluminum gussets per corner prevent twists or sagging
- Heavy weatherstripping overlaps z-bar for tight, weatherproof seal
- Sashes interlock in closed position for weathertight fit

HARVEY ESTATE SERIES STORM DOORS

Most Estate doors available in white, bronze, sandstone, black, almond and green (except where noted). Many other Estate Series storm doors are available special order; consult the Harvey catalog or ask your local branch for more information.
